

PARTNERSHIP OFFER

Topic / title of the proposed project

Youth in Europe - Innovation entrepreneurship.

Objective:

Initial position / background / local context of the proposed project

The Camp will focus on innovation and entrepreneurship within social as well as business-based innovation.

In both areas, however, the products must have a practical value. We have therefore decided to take our starting point in real life issues as business companies and social authorities see them. Throughout the innovation process, we shall try to convert our ideas into concrete approaches that might turn out to be practical solutions.

Proposed objectives / activities

Innovation Camp in Kalundborg, Denmark October 10 – 15, 2010 at Kalundborg Gymnasium, for a number of students and teachers.
